

KRESO

Combination of Coal-Tar Derivatives.
(NON-CARBOLIC.)

A STANDARDIZED DISINFECTANT, ANTISEPTIC CLEANSER, DEODORIZER AND PURIFIER

Kreso possesses advantages which make it better and safer than any other material for household disinfecting, and it is preferable to carbolic acid, because it does not burn, to chloride of lime, copperas, etc., because

First. It is safe. In the dilution recommended it is practically non-poisonous, and can therefore be used freely, and is safe to have around. It is not caustic or irritating; it does not attack metals, and therefore does not destroy plumbing; it does not permanently stain washable fabrics.

Second. It is effective. Our laboratory tests require that in a 1% solution it must destroy the most resistant disease-germ (the green pus germ) in one minute. It thus disinfects, cleanses and purifies. It destroys foul odors, not by substituting another, but by destroying the cause of the odor.

Third. It is standardized; always the same. You can depend upon it.

Kreso is particularly valuable in preventing an outbreak of contagious diseases, by destroying infection, cleansing, purifying and promoting sanitation. It is the ideal disinfectant for HOSPITALS, RAILWAY STATIONS, PUBLIC BUILDINGS, SCHOOL ROOMS, BATH-ROOMS, WATER-CLOSETS, URINALS, KITCHEN SINKS, STORE ROOMS, OUT- HOUSES, GARBAGE BOXES, CESSPOOLS, STABLES, DOG-KENNELS, CAGES, ETC.

For all general disinfecting purposes mix Kreso with water (warm preferred) in the following proportions:

1 tablespoonful Kreso, 3 pints water, 12 gallons water.
making approximately a 1-to-100 solution.

SAFE AND EASY TO USE.

CAMPBELL EXPLAINS.

Governor Defended the Acts of Legislature As Platform Demands.

Fort Worth, Texas, Aug. 7.—The event of the second day's session of the fifth annual meeting of the Farmers' Union of Texas was the address of Governor Tom Campbell of Texas on taxation and kindred subjects, broadly and generally a defense of the legislation of the Thirtieth legislature, most of the much criticized work of that body being, the governor asserted, responsive to platform demands. There has been some talk, he said, of a special session. He said he wished to make the positive statement that there would be no called session to undo any of the legislation which had been done of the character indicated, and if there was a called session it would be to mend the cracks in the laws enacted by the Thirtieth legislature by the interference of federal courts or mayhap some of the state courts. Most of that legislation was wise; was for the benefit of the people generally, and it was there to stay as long as he had any say in the matter. His appearance on the platform was the signal for applause, and when the two hours' speech was ended an impromptu reception lasting many minutes was held.

The work of the farmers today was for the most part in executive session, devoted mainly to the reception of reports of the officers. The report of the secretary-treasurer was so largely financial that no copy was given out. The report indicates a membership of 200,000 or more, divided among nearly five thousand local unions organized in one hundred and fifty counties of the state.

AGED LADY KILLED.

She Mistook a Freight Train For the Passenger.

Howe, Texas, Aug. 7.—A terrible accident happened at the railroad station this morning about 5 o'clock, resulting in the death of Mrs. J. S. Angel, a lady nearly 80 years old. A sister, who had been visiting her for some time, was at the station to leave for her home on the News train and had forgotten her money, and Mrs. Angel had returned for it. Mistaking a freight train for the passenger, and in attempting to reach the ticket office with the money, she was struck by the engine of a freight train. Her left leg, left thigh, arm and shoulder were badly crushed. She never rallied, but lived about five hours after the accident occurred.
